

The Scanner that Fits with your Business

The imageFORMULA DR-S150 is designed to fit with however you work. Link it up to your network and access it from a variety of means: PCs, smart devices – or even perform scan tasks right at the device itself. The large-format color touch panel makes every job straightforward and intuitive.

Business usability

- Install wherever there is network (wired/wireless)
- Operable from assorted devices

Intuitive touch panel

- Simple to operate, fast to finish
- Work without a computer

Work simpler. Work smarter. With the imageFORMULA DR-S150 scanner.

Connect the imageFORMULA DR-S150 and share its capabilities with every computer on the network. Work from anywhere in the office – and even on your smart device.

The large, intuitive interface of the color touch panel makes it easy to complete your tasks. Simply touch the job title and execute the process you want. It is so easy to operate, your co-workers can complete tasks right from the first use.

Network Scanner Line-up

	NEW 			
DR-C225W II	DR-S150	ScanFront 400	DR-G2-series (DR-G2140, DR-G2110)	NA-10
WiFi	WiFi / Ethernet	Ethernet	Ethernet	Ethernet option

► Install anywhere. Use everywhere.

Wireless/wired network capability

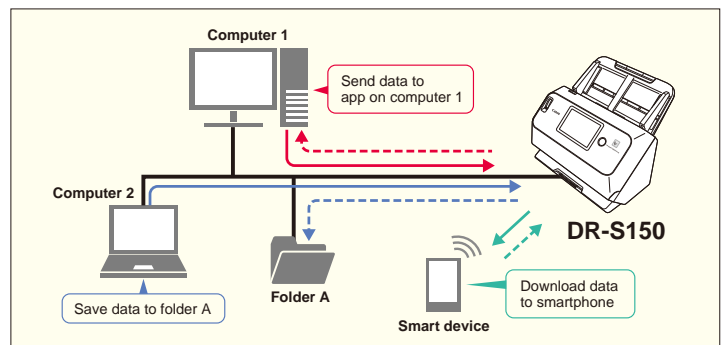

Connect the imageFORMULA DR-S150 to your office network to share its functions with everyone. Its small footprint means you can place it where bigger scanners will not fit – even at the reception counter where customers can see as you scan the data.

Install wherever you have LAN / Wi-Fi

Access from wide variety of devices

You can operate the scanner from your computer, smart device* or even at the scanner itself. Scan to your PC, download directly to your smart device to share, or send to a specific network folder – the choice is yours.

Operate from assorted devices

* To use a smart device, you need to install the CaptureOnTouch Job Tool application to your smart device

* The CaptureOnTouch Job Tool cannot be used to transfer data to applications

Function

Intuitive large-format color LCD touch panel

The scanner is equipped with a 4.3-inch large-format color LCD touch panel. Designed with operability in mind, the interface is intuitive even for new users, yet optimised for efficiency.

DR Processor image processing engine

At the heart of the scanner is the DR Processor image processing engine. Its high-speed CPU makes fast, high-quality scans possible without dependence on PC performance. It supports the latest interfaces (such as USB3.1 Gen1) and automatically reduces uneven coloring for optimal OCR (Optical Character Recognition).

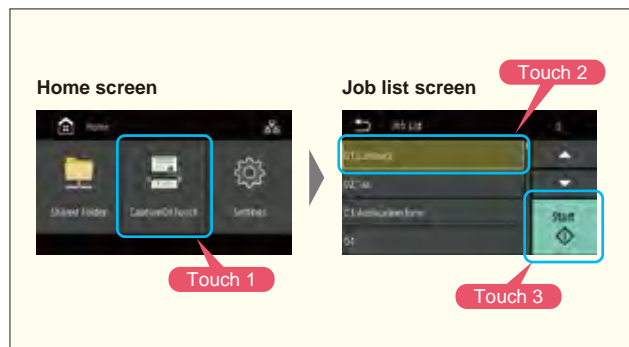

► Easy menu operation

Intuitive touch panel

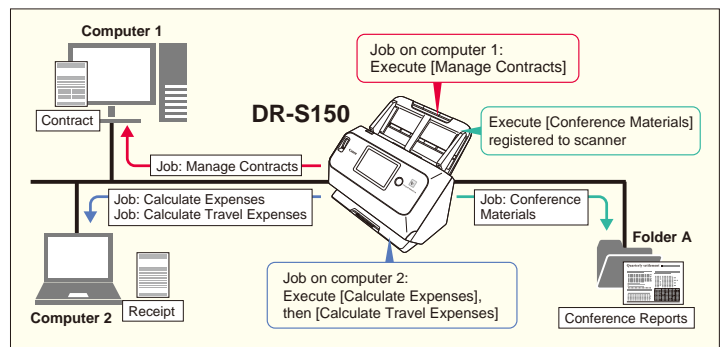

Scan settings and storage folders can be registered in advance, so you just have to select the procedures you want from the touch panel. This shortens and simplifies the process, reduces mistakes and lightens the administrator's workload.

Pre-set processes help reduce errors.

Standalone capable

Use the touch panel to select and execute jobs registered on computers or smart devices on your network. There's no need to return to the computer when the job is complete. You can even specify a shared folder for storing data, so you can do all your scanning work at the scanner, without using a computer.

Execute jobs directly from the scanner.

Active Threshold

Brightness and contrast are automatically optimized for each document, eliminating the need for advance preparation and manual categorization for different forms.

Barcode/2D code module

The scanner recognizes a wide variety of barcode/2D barcode standards:

- Barcode module: EAN/JAN, PC-A, UPC-E, ITF, CODE39, CODABAR (NW-7), CODE128
- 2D barcode module: QR Code, PDF417, Data Matrix (DataCode)

DR-S150 Specifications

Type		Desktop sheet-fed scanner
Document size	Plain paper	Width: 50.8 mm to 216 mm Length: 54 mm to 356 mm * You can scan documents up to 3,000 mm long by setting the scanner to the Long Document mode.
	Business card	50 mm x 85 mm or larger
	Card	54 mm x 86 mm (ISO standard)
	Passport	Size: 88 mm x 125 mm (ISO standard) * When scanning, be sure to open the passport and insert it in the separately sold carrier sheet beforehand.
Document thickness and weight	Plain paper	Page separation: 0.04 mm to 0.25 mm. 27 to 209 g/m ² Bypass: 0.04 mm to 0.3 mm. 27 to 255 g/m ²
	Business card	380 g/m ² 0.45 mm or less
	Card	1.4 mm or less
	Passport	4 mm or less (including carrier sheet)
Document feeding method		Automatic
Scanning sensor		Contact image sensor
Light source		LED
Scanning side		Simplex / Duplex
Scanning modes		Black and White, Error Diffusion, Grayscale, Active Threshold, Advanced Text Enhancement, Advanced Text Enhancement II
Scanning resolution		100 x 100 dpi / 150 x 150 dpi / 200 x 200 dpi / 240 x 240 dpi / 300 x 300 dpi / 400 x 400 dpi / 600 x 600 dpi
Scanning speed*	Grayscale	200 dpi / 300 dpi: 45 ppm (Simplex), 90 ipm (Duplex)
	Color	200 dpi: 45 ppm (Simplex), 90 ipm (Duplex) 300 dpi: 30 ppm (Simplex), 60 ipm (Duplex)
Interface		USB 3.2 Gen1x1 / USB 2.0, IEEE802.11b/g/n, 10Base-T/100Base-TX/1000Base-T
Scanner driver		ISIS / TWAIN Driver
Other functions		Folio scanning, Double feed detection ignore
Dimensions (W x D x H)	With the trays closed	291 mm x 247 mm x 242 mm
	With the trays open	291 mm x 600 mm x 378 mm
Weight (without AC adapter)		Approximately 3.3kg
Power supply (using AC adapter)		24 VDC, 0.9 A
Power consumption		Scanning: 22.5 W or less In the sleep mode: 3.4 W or less With power switch OFF: 0.1 W or less
Operating environment	Temperature	10°C to 32.5°C
	Humidity	20% to 80% RH
Options/consumables		Flatbed Scanner Unit 102 Exchange Roller Kit (feed roller and retard roller), Carrier Sheet (Passport), Carrier Sheet (A4)

* Actual scanning speed may vary depending on your system configuration and computer. Specifications are subject to change without notice.

CaptureOnTouch

CaptureOnTouch V4 provides easy and effective scanning with new GUI, including simple one-touch operation for routine tasks such as scan-to-email or scan-to-desktop.

Two scanning methods are available to satisfy a variety of needs, including ad hoc and daily scanning.

Standard Scanning: scanning mode and output mode can be separately configured.
Scanning Shortcut: where the specific scanning mode and output method are preconfigured to allow one-touch operation.

CaptureOnTouch Job Tool

CaptureOnTouch Job Tool is an application that supports iOS, Android, and Windows. It has the following 3 features:

1. Allows you to register scan settings to the scanner so you can scan your documents without connecting the scanner to a computer.
2. Allows you to operate the scanner via your smart device.*
3. Allows you to access scan jobs in the CaptureOnTouch application, which must be installed on computers on the same network. This is useful for sharing the scanner with your colleagues.*

* Available with smart devices only.

The PDF files generated by this application are automatically converted to searchable PDF files that contain the recognized text in a separate layer. This allows you to search for keywords simultaneously in multiple PDF files.
