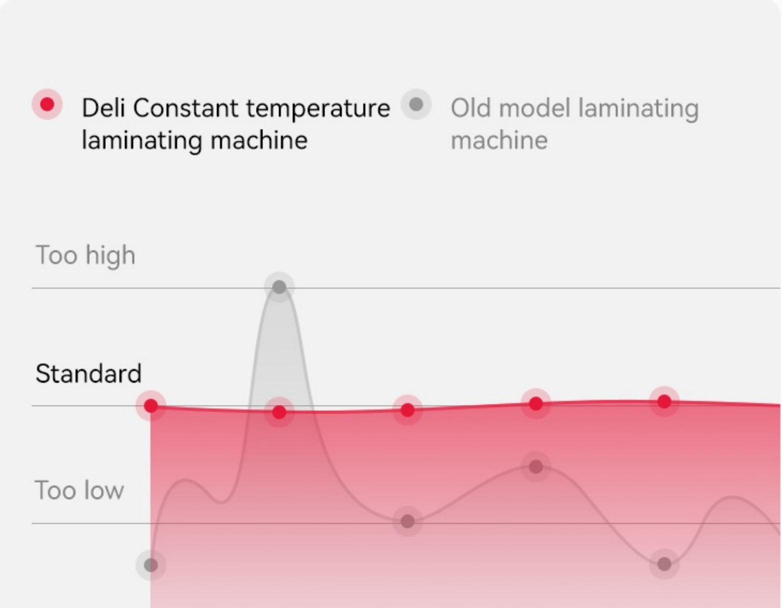
4-minute

fast preheating

Large-area dual heating plate design
Significantly shortened preheating time,
eliminating long waiting periods

Smart temperature control

Automatically maintains optimal laminating temperature to ensure sealing effect



One-touch film removal

If you encounter issues such as uneven sealing or power outage, you can switch the mode to"film removal" and pull out the laminated document

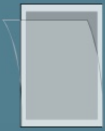
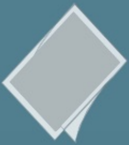
Do not use the following plastic encapsulation methods



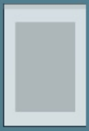
×

Insert from the opening side of the card protector film



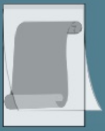
×

Insert and use the card protector film at an angle



×

The original document does not match the film specifications

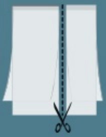


×

The original document is in a curled state

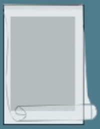
×

Use the front and back film together



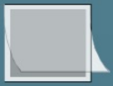
×

Cut open the film and use it



×

Plastic encapsulation using a deformed card protector film



×

The length of the plastic encapsulation piece is less than 65mm

Plastic sealing effect

Name:	Laminating machine
Ref.No.:	ET104
Size:	442mm*120mm*70mm
Maximum size:	A3
Preheating time:	≈5 minutes
Membrane thickness:	0.6mm

Membrane range:	50-175mic
Power:	500W
