## FEATURES

### Auto Select Input Voltage System

J-718 selects AC input voltage automatically. Newly designed Power Module keep high performance even AC voltage not stable area.

### Improved Sensor System

Newly-designed Main PCB and Software can keep all sensors\* of stability and accuracy for a long period of time. (\* Hopper /Stacker/ Count /Encoder Sensor)

### Easy Operation

J-718 changed operation of function settings as same as upper models of J-700 Series to change the functions easily more.

### Maintenance Mode

Various settings and maintenance menu has been added in Maintenance Mode to meets the demand of the customers and helpful for maintenance.

### New Customer Display

New Customer Display illuminate count result clearly for customers and CCTV.

### Serial I/F facility

LAUREL J-718 is equipped with Interface facility. It can transmit count result to OSD-1 or PC.

### Color Universal Design\*

LAUREL has employed this concept when designing the colors of indicator lights and the colors and shapes of operation buttons. The J-718 has received the color universal design certification mark from the non-profit Color Universal Design Organization.

### \* Color Universal Design

There is variation in the way individuals perceive colors, and many people find it difficult to see certain hues. Therefore, color universal design seeks to ensure that information is properly conveyed to all people regardless of their color perception.

## PRODUCT SPECIFICATION

Feed System	• Roller Friction / Heavy Duty Table Top
Dimensions	• 190 X 282 X 233 mm (H x W x D)
Weight	• Approx. 7 kg
Voltage	• Auto Select Voltage System (100-240 V~)
Capacity	• Hopper: 500 notes / Stacker: 200 notes
Counting Speeds	• 1000/1250/1500 notes/min.
Countable Note Size	• Max : 100 x 185 mm Min : 50 x 100 mm Thickness : 0.06mm - 0.15mm
Option	• RS-232C, Customer Display, OSD-1
Warranty	• 1 Year

\*Specification may change without prior notice
