ADMIRAL

Check Writing System
Corporate Edition

Full suites with features of master list, security login, check printing, debit and credit and reports.

Benefits of having Check Writing Software

• Ease of use without making any manual transactions for printing checks with just a type and feeding of paper away.

• Enabling you to encode only one time and print several times as many as you want with the PDC printing functionality without a hassle.

• Tracking your transactions is never been hard with the new reporting functionality which enables you to print and export report transactions of your checks depending on the filters for specific data that you need.

• Check format maker which enables you to create unlimited formats of checks which eases you to just encode and pick the format without worrying the alignment of each check fields every time you print.

• The software can print checks in all printers that you have giving you extra saving with picking the right printer for your check writer.

• It is perpetual, no added cost for maintenance, nothing to maintain for the parts since it is a software nothing to worry about.

• PCHC and BSP check format compliant.
